

St. Aidan's Stars Bulletin

In the Love and Truth of Jesus we grow

What a fantastic week we've had.

A huge well done to our Year 3 and Year 4 children who had their camp out this week and - for many - spent their first ever night away from a family member. It was fantastic and they had such a good time and did so many new things. A massive thank you to all of the staff who stayed overnight and then worked the next day with very little sleep - they really are absolutely dedicated to the children and make so much possible that otherwise wouldn't be.

Well done to our girls' football team who won the Northumberland Catholic School Cup this afternoon. That completes a league and cup double - the biggest achievement of our school so far. Howay the lasses! Mr Moran.

Class News

Seedlings - Seedlings have blown our socks off with their knowledge of the butterfly lifecycle, the retells of the Very Hungry Caterpillar and their marvellous maths work! Well done!

Saplings - This week we have been thinking lots about how we can reduce, reuse and recycle and even learnt a song to help us remember!

Sycamores - This week we have worked on our teamwork skills and communication. We gave each other instructions whilst taking on a blindfolded obstacle course.

Poplars - This week we have been focussing on forgiveness and saying sorry. We had some super discussions. Well done!

Maples - Maples have had an exciting, busy week with our amazing drumming performance and camp out. All of the children have done us proud.

Elms - The highlight of our week has to be our camp! There were smiles, laughter and fun from the moment the flag was raised to claim camp as our own. The children will definitely sleep tonight after a late night, early morning and non-stop activities! I was blown away by the confidence, independence and resilience skills that every single member of the class showed!

Hawthorns - This week we have worked really hard completing our assessments and have shown lots of progress. I am really proud of everyone's achievements as we approach the end of Year 5.

Chestnuts - In Science, we have been discussing what a healthy lifestyle looks like. In RE, we have talked about the Sacrament of the Sick and how it brings comfort and healing.

Attendance

Saplings - 92.41%
Sycamores - 96.00%
Poplars - 89.33%
Maples - 96.00%
Elms - 97.67%
Hawthorns - 98.67%
Chestnuts - 99.09%

Well done to Mrs Teer's class!
