What is nursery all about?

Nursery is all about playing and exploring, experimenting, making friends, making mistakes, trying things out and asking lots of questions! We learn through carefully planned practical experiences that help us make sense of the world.

Each child enters nursery at different levels of learning and development. Each child's knowledge, experience and interests are taken into consideration when carefully planning activities and experiences, encouraging a love of learning and enabling each and every child to reach their full potential.
